

# MBBS

## INTRODUCTION

An MBBS degree is an undergraduate course for aspirants who want to fulfil their dream of becoming a doctor. Bachelor of Medicine and Bachelor of Surgery (MBBS) is a professional degree in medical science. A person holding the MBBS degree becomes a certified medical practitioner.

The Doctor is a highly respected individual and medical profession is the most revered profession around the globe. The course of MBBS equips a student with the required skills, knowledge, values, behaviour and attitude required to practice as a doctor.

The duration of MBBS course is **five years and six months** including one year of rotational internship at hospitals, health centres, and health camps organised by non-profit organisations (NGOs). MBBS course syllabus includes studies on anatomy, pharmacology, pathology as well as community health & medicine, paediatrics, and surgery. The syllabus, prescribed in such a way that MBBS degree holders can choose a specialisation for further majoring and practising medicine. The career specialisations for MBBS students are Nephrology, Cardiology, Gynecology, Anesthesiology, Organ Transplant, Endocrine, and General Surgery, etc.
